

We need K-love. So many people listen to it around here and it has touched so many people. It is just about the only family radio station the whole family can listen to without something inappropriate being said. My friends and i always talk about the great songs and how they haved touched us. It is also the only Christian station that is not to "wild" or to "hard". I like it because it is contemporary but it is not so old like Hymes. You really need to think about what you are doing. Many people will be upset if you take OUR K-love away.

sincerely,
Kathy Cobb
